DOMINANTS4CASH — Terms & Conditions

Version 1.4.6 | Approved 11 November 2026 | Effective upon publication on D4C

IMPORTANT: These Terms form part of the contract between you and ONLINESERVICES LTD when you register for, purchase, access or use DOMINANTS4CASH. Please read them carefully together with the Privacy Policy. If you do not agree, you must not register for or use the Service.

1. Operator and Service

DOMINANTS4CASH ("D4C", the "Service", "site", "we", "us" or "our") is operated by ONLINESERVICES LTD, 133 Tame Road, Birmingham, B6 7DG, United Kingdom. D4C is an adult, registered-members-only online community built around consensual financial domination and related adult fetish role-play. References to "Master", "Slave", "Switch", "ownership", "Stable", "Jail", "Prison", "Governor", "Parole", "Death Row" and similar expressions are D4C community, feature and role-play terminology. They do not create legal ownership, detention, employment, agency or authority over another person outside the Service.

2. Eligibility, Men-Only Membership and Age

D4C is intended only for adult men aged 18 or over who satisfy our registration and age-assurance requirements. Unregistered visitors cannot use member areas. A registered member admitted to the limited 48-hour Guest Preview may view only the areas enabled for that preview under the applicable access rules. You must provide accurate information and must not misrepresent your age or identity. Where age assurance is required, access may be withheld until the required check has been completed. A declaration that you are over 18 does not by itself replace any age-assurance process required by D4C.

UK online safety law requires services that allow pornographic content to use highly effective age assurance to prevent children from accessing it. D4C requires completion of the age-check process applicable to your access route. Refusal or failure of a required check may prevent access to adult content. A saved browser cookie is not itself proof of age.

3. Registration and Acceptance of Policies

Registration requires active acceptance of the current Terms & Conditions and Privacy Policy. The acceptance boxes must be completed by the member and are not optional. Copies of both documents will be available to read and download before acceptance. D4C may record the member/User ID, policy version, acceptance date and time, and relevant registration or re-acceptance context as evidence of acceptance.

By actively accepting these Terms and completing registration or continued Stage One admission, you confirm that you have had the opportunity to read them, understand the membership conditions and possible restrictions described here, and agree to be bound by the current Terms as a condition of using D4C. This includes the general duties for all members and, if you select a Slave plan, the additional in-site conditions that can apply within a Master's Stable. If you do not agree, do not complete the acceptance or use the Service. Acceptance does not waive your statutory rights or consent to any particular private payment, real-world act or personal interaction.

Because Stage One introduces materially revised membership rules and functionality, existing members as well as new members must review and accept the Stage One Terms & Conditions and Privacy Policy before obtaining normal Stage One access. Earlier acceptance records may be retained as historical records.

Consent to community framework. Active acceptance of these Terms is informed agreement to the disclosed D4C membership framework, including the applicable rules of a voluntarily selected plan. Acceptance is not consent to

any unspecified, future or particular personal, sexual or private financial interaction. Consent to personal activities must be separately and continuously respected.

4. Registration, Preview and Induction

New members follow the admission steps presented to them, including email verification where required, selection of an available membership plan, completion of required profile details and avatar, acceptance of current policies, Site Induction Manager and the Two Worlds induction experience. Normal Network World access begins only when the Command Centre entry step has been completed. Existing members admitted from the previous site may be asked to complete outstanding policy, profile and induction steps; they do not need to register again.

Where offered, the 48-hour Guest Preview is for registered, authorised members. Its period begins after successful preview admission, not simply when an account is created. Preview access is view-only in the permitted areas; posting, messaging, purchases or other actions may remain unavailable according to the preview controls. At expiry, preview access ends unless the member completes the applicable membership and induction route. A preview does not waive age, conduct, privacy or other site rules.

Unactivated Guest Preview invitations. A Guest Preview invitation does not start the 48-hour review clock. Where an invitation remains unactivated, D4C may send a reminder around Day 3 and a final reminder around Day 7. If there is still no activation or response, D4C may automatically close the unused invitation or dormant Guest Preview account around Day 12 and send a final closure email. The invitee may also choose the available “No thanks” option before activation to close the unused invitation/account and stop further reminders.

Closure of an unactivated Guest Preview does not create or preserve membership, probation, site access or other continuing rights. D4C may retain a limited admissions and communications audit record of the invitation, reminders and closure where reasonably necessary for administration, compliance, security, dispute handling and prevention of unwanted repeat invitations. This is not retained as an active member profile.

5. Membership Types and Access

D4C may offer membership plans including Master, Masters Plus, Slave and Switch plans and may alter the plans, prices and included features from time to time. The membership plan shown at checkout governs the price and duration purchased. Access to particular features may depend on membership type, status, probation, availability, suspension, Jail/Prison status or other rules described in these Terms.

Switch membership clarification. For D4C access and Master-side functionality, a Switch is generally treated in the same way as a Master, subject to the rules and restrictions that apply to the feature being used. The exception is Stable ownership: a Switch cannot create, own or operate a Stable. If a Switch wishes to own a Stable, the member must first change to Master or another eligible Master membership type. When a Switch participates in a submissive capacity, the relevant Slave/Sub rules and guidance apply to that activity.

Every D4C membership comes with conditions and possible restrictions. By choosing and continuing to use a membership plan, you agree to follow the rules for that plan, the community conduct and participation requirements, and the published controls for the features you use. D4C may limit access to areas or functions where a rule applies to your role or account status, including probation, an authorised suspension, a valid Jail sentence or a controlled Prison World visit. A plan purchase does not guarantee unrestricted access to every feature or continuous access regardless of conduct or status. Restrictions must be applied under the published D4C rules and remain subject to Site Admin/Governor oversight and applicable legal rights.

Conditions that apply across membership plans. Members must meet the applicable activity requirements, follow the conduct rules and comply with controlled access instructions. Any member, regardless of whether his plan is

Master, Masters Plus, Slave or Switch, may become subject to the published inactivity and review process, a rule-breach investigation, a hearing or a permitted site restriction where the relevant conditions are met. An authorised Prison World visitor of any membership type may also be impounded for failing to complete the controlled exit before the visit expires. These outcomes are governed by the relevant procedures; a complaint or missed activity target does not automatically impose a Jail sentence, terminate membership or predetermine a hearing result. The administrator exemption from Member Probation described in section 6 remains in place.

Additional conditions of Slave membership. A member who chooses a Slave plan accepts that, if he voluntarily joins an eligible Master's Stable, that Master may exercise only the specific in-site authority granted by the published Stable and Prison World rules. This can include lawful, consensual Stable conditions and, where the member and circumstances qualify, a D4C Jail sentence of one to seven days. A valid sentence may temporarily restrict Network World access and ordinary site functions, and the Slave may be removed from the Stable when the sentence is imposed. The resulting site controls apply while that sentence is in force and cannot be cancelled merely by asking the Master to waive them; only the authorised Site Admin/Governor can correct, override or release a sentence under D4C rules. The Master cannot create new site powers or change the published limits.

Choosing a Slave plan does not require joining any particular Stable, paying a Master privately, accepting an undisclosed condition, or consenting to sexual, financial or other personal conduct. A member may withdraw consent to an interaction, decline a demand, leave or seek to leave a Stable under the applicable site process, and report abuse or request Site Admin review. Withdrawal from a relationship does not by itself erase a valid site record or automatically end a sentence already imposed, but D4C will provide an appropriate way to seek review. No D4C role or site rule removes statutory rights, permits unlawful conduct, or creates real-world ownership or detention.

SLAVES PLAN. By voluntarily selecting the Slave plan and accepting these Terms, a member acknowledges the published financial-domination, participation and in-site control framework, including properly authorised Stable and Prison World procedures. The member does not thereby agree to any specific private tribute amount, personal activity or unlimited authority of another member. Joining an individual Stable and accepting its disclosed conditions must be voluntary. Personal consent may be withdrawn, while existing lawful administrative records and valid site restrictions remain subject to authorised Governor/Admin review rather than automatic cancellation.

6. Stage One Probation and Active Participation

D4C is an active participation community and is not intended for dormant or "ghost" profiles. All eligible Masters, Slaves and Switches entering Stage One are subject to a 90-day probationary membership period. This includes

eligible existing members migrated into Stage One from a controlled common start date. Administrator accounts are exempt.

Every probationary member must record activity on at least 12 distinct active days during the 90-day period. A Slave must additionally obtain 2 qualifying 5-star Master recognitions arising from genuine voluntary tribute or positive participation for which appropriate audit evidence is retained. No fixed tribute or payment amount is required for a recognition.

Masters and Switches are also subject to the 12-active-day requirement. Any additional role-specific participation measure must be published to affected members before it is applied to their probation outcome. Attendance alone does not guarantee confirmation if an applicable, previously published measure has not been met.

Where applicable requirements remain unresolved at Day 90, the account enters REVIEW REQUIRED status and may be referred to the D4C Parole Hearing process. Referral is a review mechanism and is not, by itself, automatic expulsion, Jail, Death Row placement or termination.

7. Ongoing Activity, Availability and Inactivity

Members are expected to maintain reasonable participation. D4C may send a first inactivity reminder after 7 days and a final warning at the Day 14 stage where the member is eligible. A final-warning response period of at least 7 days starts when that warning is actually sent, not on a presumed or backdated date. No account automatically enters Death Row at the end of that period. Any Death Row referral requires verified delivery of the final warning, expiry of the full response period, no qualifying return or response, consideration of exemptions or permitted Away/On Holiday/Unavailable status, and administrator approval. No automated sanction or account deletion follows merely from the passage of time. These provisions are separate from the 90-day Member Probation review. D4C may review misuse of an availability status.

8. Profiles, Identity and Media

Members must maintain a genuine profile and comply with current profile and verification requirements. D4C may require an identifiable profile photograph. You must not create duplicate or deceptive profiles, impersonate another person, use throwaway contact details, or upload material you do not have the right to use. You remain responsible for content submitted through your account.

9. Consent, Financial Domination and Member-to-Member Payments

All activity between members must be consensual and lawful. Members are responsible for deciding whether to enter into any financial domination, tribute or other voluntary arrangement. Except where a transaction is expressly processed by D4C as a site service, D4C is not a party to private member-to-member payments and does not guarantee performance, repayment or satisfaction. A member must not use threats, fraud, coercion or unlawful pressure to obtain money, services, content or personal information.

Payments to Masters: A voluntary tribute or other payment made directly to a Master, including a payment suggested by the Lucky Wheel, is the paying member's decision and is an arrangement between those members. The Lucky Wheel may display a Master and an amount, but the resulting member-to-member payment is made outside D4C's membership checkout and CMC Credits system. ONLINESERVICES LTD does not receive or control a direct private payment, does not promise that the Master will provide any particular response or outcome, and is not responsible for a Master's failure to repay or perform a private arrangement. If a member instead pays through D4C Credits, CMC hosting, checkout or another site-operated service, the applicable D4C transaction terms and statutory consumer rights continue to apply. Nothing in this section excludes liability that ONLINESERVICES LTD cannot lawfully exclude, including liability for its own breach, negligence, misrepresentation or obligations under consumer law.

Financial expectations and consent. Masters may express financial domination, make tribute requests or demands, and propose recurring tribute expectations or other disclosed Stable conditions in a consensual adult roleplay relationship. A Slave may agree to or refuse a particular private payment. No private demand creates a legally enforceable debt merely because the member joined D4C or accepted a Slave plan. Blackmail, threats, harassment, misrepresentation or other unlawful pressure to obtain payment are prohibited. A Master may choose not to enter or continue a voluntary Stable relationship where lawful agreed conditions are not met; any site-level consequence must follow published rules and cannot be used to force payment.

9A. Lucky Wheel — Rules and Participation

The D4C Lucky Wheel is a FUN FEATURE provided for amusement and community entertainment only. It offers a light-hearted way for eligible adult members to engage with the D4C community and discover participating Masters. Participation is entirely optional: no member is required to spin the wheel, make a payment, accept a

suggested tribute, or participate as a condition of continuing his membership, completing induction, remaining in good standing, or avoiding a sanction.

Where the feature is available, it may display a “Lucky Day / No Pay” outcome or identify a featured eligible Master with a suggested tribute amount that may vary. These are suggested outcomes displayed by the website, not invoices, debts, guaranteed prizes, or instructions that override a member's ability to decline. ONLINESERVICES LTD reserves the right to select, approve, add, remove or replace Masters appearing on the Lucky Wheel. Participants will normally be selected from approved FEATURED Masters, but FEATURED status does not guarantee inclusion. ONLINESERVICES LTD may change suggested tribute values, participating Masters and available outcomes prospectively at its discretion, subject to applicable law and these Terms. No Master has a guaranteed right to appear or receive referrals or tributes. Any applicable eligibility, frequency limit, or entry condition must be disclosed beside the wheel before a member participates.

A suggested direct tribute to a Master is wholly voluntary and, if made, is a private arrangement between members. D4C does not require or collect that direct payment through the Lucky Wheel, does not guarantee any response or benefit in return, and does not impose a sanction for declining it. The rules on consensual participation, prohibited coercion, direct member payments and statutory rights in section 9 continue to apply.

The Wheel must not be presented as an opportunity to stake money to win a financial prize. No purchase or direct tribute is required as a condition of taking part in an eligible free-spin activity. If actual settings or access restrictions mean that this statement is not accurate, the Wheel must not be offered on that basis until its operation and legal classification have been reviewed and the published rules corrected.

Where enabled, the Wheel or its service provider may process a participant's account identifier, contact information, time of participation and result for operation, duplicate-use controls, security, correspondence and audit, subject to the current Privacy Policy. Any separate Wheel checkbox must provide a direct link to these current Terms and must not be used to imply consent to optional marketing. Applicable marketing choices must remain separate.

Members may report errors or concerns to the Site Administrator. D4C may suspend or correct the Wheel for technical, security or compliance reasons, but must not retrospectively convert a voluntary outcome into an enforceable member debt or penalty. These Wheel provisions must be read together with the current Privacy Policy and published feature guidance.

10. D4C Credits and Pay-Per-Minute Master Hosting

D4C may operate a Credits system for site services, including pay-per-minute Master hosting and related bookings or sessions. The current purchase price, credit value, applicable per-minute rate, session rules and any revenue split are displayed by the relevant D4C service at the time of purchase or use. Credits are a contractual unit for use within D4C and are not cash, a bank deposit, electronic money or a transferable currency unless D4C expressly states otherwise.

For eligible paid CMC (pay-per-minute) Master-hosted sessions processed through the D4C Credits system, the standard revenue-sharing arrangement is 70% of eligible recorded session revenue to the eligible Master host and 30% retained by Dominants4Cash (D4C), operated by ONLINESERVICES LTD . Host earnings and the D4C site share are calculated using the applicable published CMC rate and verified session records, subject to permitted corrections and the current host payout terms. Private voluntary tributes or other payments made directly between members outside the D4C Credits/CMC system are separate arrangements and are not subject to this CMC revenue split.

ONLINESERVICES LTD is responsible for its site-operated membership purchases, D4C checkout, CMC Credits system and any D4C Get Out of Jail release-card fee charged through the site. This includes maintaining its

transaction and session records, applying the published charges and administering applicable member remedies. Payment processing may be provided by PayPal or another disclosed provider, but that does not remove D4C's responsibility for these site-operated services or rights members have under law.

Masters eligible to provide paid hosting may receive earnings in accordance with the applicable host terms, payout profile, verified session records and D4C revenue split. D4C may correct obvious technical errors, duplicate credits, fraudulent transactions or incorrectly recorded sessions. Separate payment-provider terms may also apply.

11. Stables and D4C Ownership Role-Play

Only an eligible Master or Masters Plus member may own and operate a D4C Stable. A Switch cannot create, own or administer a Stable. If a Switch wishes to own a Stable, the member must first change to Master or another eligible Master membership type.

A Slave may request or agree to join an eligible Master's Stable. A Switch may also participate as a subordinate Stable member where the Service permits it, and for Stable membership limits a Switch is treated in the same way as a Slave/Sub. A member may be restricted to one Stable at a time where the Service so provides. A Master may set lawful, consensual Stable conditions and tasks only within D4C's published rules. The additional in-site conditions and controls of Slave membership are explained in section 5, and the controlled Jail process is explained in section 12. “Owned”, “ownership” and similar descriptions are role-play/community status only and do not give a Master legal ownership of, or real-world authority over, another member. Consent may be withdrawn from personal interaction and cannot excuse unlawful conduct.

Agreed Stable conditions. Before joining a specific Stable, a participating member should have an opportunity to understand its lawful, disclosed conditions. A Master may raise a genuine alleged failure to satisfy an agreed Stable or membership condition with Site Admin/Governor through the Member Conduct, Safety & Wellbeing referral process. Such a referral does not itself constitute proof of misconduct, automatically initiate a Parole Hearing or authorise any private payment enforcement.

12. Jail and Prison World

D4C contains a controlled Prison World and Jail system. Where the applicable D4C rules permit it, an authorised Master may impose a site sentence only on an eligible Slave within that Master’s own Stable and only for the permitted duration. A jailed member may have Network World access and ordinary site functions restricted for the sentence period. Site Admin/Governor retains authority over administrative release, correction and override.

Prison records may be retained as part of the member’s D4C account history. A Jail sentence is a digital site restriction and role-play feature only. It does not represent physical detention or remove any real-world legal right.

If a Get Out of Jail release card is offered, its price and conditions will be shown before purchase. Buying it does not itself end an active sentence: expiry and the authorised Site Admin/Governor release step must also occur under the published Jail rules. D4C administers the site-operated purchase and any applicable consumer remedies.

Safety referrals during sentence. A member subject to Jail or other Prison World restrictions retains an authorised means to report genuine safety or consent concerns. Submission does not automatically pause, shorten, cancel or release a valid sentence or restore Network World access. Only Site Admin/Governor may correct, override or release a sentence through existing authorised Jail controls. Credible immediate safety risks may nevertheless warrant separate protective intervention.

13. Prison Visitors and Impoundment

Where D4C offers controlled Prison World visits, a successful admission starts a 10-minute authorised visit and temporarily confines the visitor to Prison World. This visitor rule applies to any admitted member, whatever membership plan he holds. A warning is presented when two minutes remain. The visitor must follow the authorised exit route before time expires; simply navigating to a Network World page does not count as an exit. If the visit expires first, the account may be confined to the view-only Holding Pen/impounded state until released by the authorised Site Admin/Governor. A controlled Calling Bell may remain available to contact the Governor. These are access-control and role-play states only.

14. Inactivity Review, Parole and Death Row

D4C may operate an escalating inactivity and review process, including warnings, a grace period, review referral, Parole Board consideration and a Death Row state for accounts approaching closure. Where an appeal or hearing is offered, the member may use the provided process. D4C may appoint appropriately authorised Parole Board members with limited, temporary permissions. Site Admin/Governor retains the final administrative authority provided by the Service rules. A Death Row state is a site account-governance state and not a real-world sanction.

15. Shared Parole Board Service

D4C is a participation community in which every member has a role. As a condition of ordinary membership, every eligible Master, Slave and Switch must take one fair turn serving on the D4C Parole Board when selected. Parole Board service is a shared community responsibility. It is not a punishment, employment relationship, permanent rank or grant of authority outside the particular D4C hearing.

The system selects members randomly from those who have not yet completed service when an eligible production hearing requires Board members. Site Administrator/Governor accounts are excluded. A member who is temporarily Away/Unavailable, suspended, jailed, subject to an active Death Row case, conflicted in the case or otherwise temporarily ineligible may be deferred and returned to the future pool. A member on active Member Probation, or whose probation is awaiting review, is temporarily excluded from random Parole Board service. Once probation is successfully completed, or Site Admin records an authorised probation exemption/override, the member may enter the ordinary service pool subject to the other eligibility rules. Deferral does not normally satisfy or permanently remove the service duty. Site Admin/Governor may record a justified service exemption or deferral.

Formal appointment is separate from random service. Site Admin/Governor may deliberately appoint a member to the Parole Board under the controlled Board-appointment process. A formal appointment is not the same thing as being randomly summoned for mandatory service and is not automatically cancelled merely because the member is on probation. Any such appointment remains subject to Site Admin/Governor authority and the permissions of the authorised hearing workspace.

A selected member receives an Official Parole Board Service Summons through the D4C communications/email system and normally has seven days to acknowledge it. The summons identifies the member, hearing/case reference where available, date of issue and acknowledgement deadline, and provides access to the official guidance and acknowledgement route. Acknowledgement activates only the temporary access and permissions required for authorised Board service. The member must consider the case fairly, maintain confidentiality, attend and participate in the authorised hearing and follow the hearing procedure. Formal case outcomes and enforcement remain with the relevant D4C case process and Site Admin/Governor.

If a summoned member genuinely cannot serve, he should contact D4C Administration promptly to request an authorised exemption or deferral rather than ignore the summons. Completion of one properly attended mandatory service ordinarily satisfies the member's Stage One Parole Board duty and removes the member from

later random draws. Failure to acknowledge, non-attendance or refusal may be recorded and referred to Site Admin/Governor for review under the membership rules. The Parole Board system does not automatically jail, punish or terminate a member for refusal or non-response.

Simulation and testing. D4C may use clearly identified test or simulation cases and sample summonses for administration, training or presentation checks. A simulation/test case or sample summons does not create a real service assignment, service deadline, Board access, completed-service record or disciplinary consequence.

Member Conduct, Safety & Wellbeing referrals. Eligible members of all plans, including Masters, Slaves and Switches, may confidentially submit a conduct or membership-review referral to Site Admin/Governor. The referral may raise consent concerns, misconduct, misuse of authority, retaliation, or alleged failure to meet genuinely agreed Stable conditions. Site Admin/Governor decides whether to investigate, resolve administratively or authorise use of the existing Parole Board process. The Parole Board does not create independent authority to release members, collect private tribute or determine an outcome without the Governor/Admin's final internal decision.

Procedural fairness and restrictions. A referral must describe the concern honestly and, where available, identify relevant facts or evidence. A member affected by an allegation should ordinarily be given an appropriate opportunity to respond, subject to privacy, evidence preservation, immediate safety measures and applicable law. A referral made honestly is not malicious merely because the allegation is unproven. The reporting service must not be used to circumvent authorised Jail restrictions or extract payments.

16. Communications, Hearings and Calling Bell

D4C provides member communication tools and controlled communication channels. Some Prison World states may restrict normal messaging and provide only a Calling Bell or other route to Site Admin/Governor. Hearing rooms may be view-only for observers and may restrict posting to authorised participants. Members must not attempt to bypass communication restrictions or access conversations for which they are not authorised.

D4C Messaging Service. Where enabled, D4C provides private text, recorded voice, recorded video and live voice/video calling features. Such use remains subject to consent and privacy rules. Members must not record live calls without the appropriate consent or unlawfully share another person's private messages, voice, video or intimate material. The ordinary Messaging Service is distinct from any paid CMC booking, credits or private hosting service. Access restrictions, including an authorised Calling Bell route, continue to apply.

17. Reviews and Recognitions

Reviews, ratings and recognitions must reflect genuine interactions or participation. Fabricated, reciprocal, purchased, manipulated or coercively obtained reviews or recognitions may be removed and may result in disciplinary action. D4C may retain evidence necessary to audit recognitions used for probation or other membership decisions.

18. Acceptable Conduct

You must not use D4C for unlawful activity; harassment; threats; fraud; non-consensual conduct; discriminatory abuse; impersonation; exploitation of minors; political or religious recruitment or propaganda contrary to D4C rules; unauthorised commercial advertising; spam; malicious software; attempts to bypass access controls; scraping or harvesting; interference with the Service; or infringement of intellectual property or privacy rights. You must comply with applicable law and D4C moderation requirements.

Consent standard and zero tolerance. All personal member-to-member activity must be lawful, voluntary and based on freely given, informed, specific and ongoing consent. Membership type, roleplay titles, prior payments,

silence or registration do not supply blanket consent. Members may decline or withdraw consent to a personal interaction at any time. Pursuing or attempting serious non-consensual conduct, including coercion, extortion, threats, non-consensual recording or sharing, exploitation or persistent unwanted financial pressure, is prohibited. Where such conduct is substantiated after appropriate review, it is grounds for permanent removal.

19. Safety and Meetings

D4C does not undertake a general criminal background check of every member. You are responsible for exercising judgment when communicating with or meeting another member. Never treat a D4C profile, membership type, Stable relationship, review, badge or status as a guarantee of another person's identity, character, financial position or safety.

20. Moderation, Records and Investigations

D4C may moderate member content and investigate complaints, suspected abuse, fraud, duplicate accounts, access-control violations and breaches of these Terms. Access to private communications or media by authorised administrators must be limited to purposes permitted by applicable law and described in the Privacy Policy. D4C may preserve relevant records where necessary for security, dispute handling, legal compliance, enforcement or audit, even where ordinary content has a shorter routine retention period.

Misuse and non-retaliation. Reporting is a safety channel, not a means to escape valid site controls or harass another member. Knowingly false allegations, fabricated evidence, retaliatory reporting, or deliberate attempts to manipulate hearings or bypass a valid Jail sentence are prohibited. Deliberate or serious abuse established after appropriate review will result in permanent removal from the community, subject to applicable legal rights. Good-faith reports remain protected even when they cannot be substantiated. Retaliation for a good-faith complaint is prohibited.

21. Suspension, Restriction and Termination

D4C may restrict, suspend or terminate an account where reasonably necessary to enforce these Terms, protect members or the Service, comply with law, address non-payment, investigate serious misconduct or operate an applicable membership lifecycle. Where appropriate, D4C may provide a warning, review or appeal route. Serious breaches may justify immediate restriction or termination. Termination does not erase records that D4C is entitled or required to retain.

Governor/Admin final internal authority. Site Admin/Governor retains final internal authority over whether a referral proceeds, what protective steps are taken, authorisation of a Parole Hearing, adoption of outcomes, membership suspension or termination, and correction or release of Jail restrictions through their separately authorised systems. The decision is final within the D4C internal process, without removing statutory rights, legally required procedures or external legal remedies. No Master, Slave, Switch or individual Parole Board participant may override such a decision.

22. Fees, Renewals, Cancellation and Refunds

Prices, billing frequency and renewal terms are shown before purchase. Where recurring billing is offered, the checkout and account controls will explain how renewal and cancellation operate.

Nothing in these Terms removes statutory consumer rights. Any right to cancel, refund, price reduction or other remedy will apply where required by law. Where a consumer expressly requests immediate supply of digital content or services during a statutory cancellation period, any legally required consent or acknowledgement will

be obtained through the relevant purchase process. D4C will not describe a blanket “no refunds” rule as overriding rights that cannot lawfully be excluded.

23. Third-Party Payment and Service Providers

D4C may use third parties for payment processing, age assurance, email delivery, hosting, communications and other technical services. Those providers may process information under their own terms or privacy notices where applicable. D4C is not responsible for independent third-party services beyond the extent required by law.

PayPal is our current payment processor. D4C may change or add a payment provider. The available methods and applicable provider will be identified at checkout before a new transaction, and the Privacy Policy will explain relevant data sharing. Any change does not retrospectively change completed payment transactions or remove your statutory rights.

24. Intellectual Property, Platform Protection and Prohibited Commercial Use

ONLINESERVICES LTD owns or licenses the rights used in D4C’s original software, custom plugins, design, branding, graphics, written and audiovisual content, training material, documentation and original implementations of its features. Third-party components, open-source code and member-owned content remain subject to their respective licences and rights. Nothing in these Terms claims exclusive ownership of general business methods, ideas or functionality where the law does not provide such rights.

Licence and restrictions. D4C grants members a limited, personal, non-exclusive, non-transferable permission to access the Service in accordance with these Terms. Except as permitted by applicable law, applicable third-party licences or prior written consent of ONLINESERVICES LTD, members must not copy, reproduce, redistribute, republish, sell, license or commercially exploit protected D4C software, source code, documentation, website design, branding or content; misuse confidential implementation material to create or promote another platform; circumvent access protections; or harvest profiles, messages or member information for external use. Restrictions on reverse engineering do not override non-excludable statutory permissions or rights under applicable open-source licences.

Commercial solicitation and member material. Unauthorised extraction or commercial use of D4C membership lists, private communications or other member data is prohibited. Members must not falsely imply D4C endorsement or use D4C marks without authority. This does not prevent authorised member-to-member tribute arrangements or lawful use of a member’s own rights. Serious unauthorised exploitation or misuse of confidential site systems or member information may lead to termination and appropriate legal action.

25. Member Content

You retain any rights you have in content you upload. By uploading content you grant D4C the permissions reasonably necessary to host, display, process, moderate and provide that content through the Service and to comply with legal and security obligations. You warrant that you have the necessary rights and permissions for anything you upload. D4C may remove content that breaches these Terms or applicable law.

Member media rights. Members retain rights in content they lawfully own, but must have the required permissions and consent for any uploaded, recorded, transmitted or shared content featuring others. D4C may process, host and moderate content to provide the service and meet legal obligations as described in its Privacy Policy. Members must not commercially reuse another member’s content without their authorisation.

26. Availability, Maintenance and Changes

D4C may perform scheduled or emergency maintenance and may modify, replace, suspend or discontinue features. We will use reasonable efforts to maintain the Service but do not guarantee uninterrupted or error-free operation. Material changes affecting membership may be communicated through the Service or registered contact details as appropriate.

27. Liability

Nothing in these Terms excludes or limits liability where it would be unlawful to do so, including liability that cannot lawfully be excluded for death or personal injury caused by negligence, fraud or fraudulent misrepresentation. Subject to applicable consumer law, D4C is not responsible for losses caused by another member, independent member-to-member arrangements, unauthorised third-party services, or events outside our reasonable control. Any further limitation of liability is subject to applicable law.

28. Privacy and Data Protection

Personal information is handled in accordance with the D4C Privacy Policy. The Privacy Policy explains the categories of information processed, purposes and lawful bases, recipients, retention, security and individual rights. Acceptance of these Terms does not convert every processing activity into consent where another lawful basis applies.

29. Changes to These Terms

We may revise these Terms where reasonably necessary, including to reflect changes in law, safety requirements, membership rules or Service functionality. Where a change is material, members may be required to review and actively accept a new version before continued access. D4C will retain appropriate version and acceptance records.

30. Governing Law and Contact

These Terms are governed by the laws of England and Wales, subject to any mandatory consumer protections that apply to you. If a provision is unenforceable, the remaining provisions continue in effect. Questions, complaints or notices may be sent to admin@dominants4cash.com.

ONLINESERVICES LTD 133 Tame Road Birmingham B6 7DG United Kingdom
